

## Student Support & Resources

Students of the college can gain support from a number of areas including:

- Subject Coordinators
- Module Instructors
- Director of Training (DOT)
- Dean of Education
- College administration staff
- Supervisors of clinical training (SOT's)

There is a student manual which provides an overview on how they can access resources and their responsibilities as a student/trainee of the college.

They also have access to the following resources:

- ACP online modules
- Online resource library
- Royal Society of Medicine online library access
- Phlebology Journal online access by SAGE
- ACP run workshops and courses
- ACP Annual Scientific Meeting

For IT and online technical support, students can contact the College Executive Manager.

For health and wellbeing support, students can access a Support Services page on the website.

For professional and career advice, students can seek advice and support from the National Director of Training and the Clinical Supervisor.
