

**21ST ANNUAL SCIENTIFIC MEETING OF  
THE AUSTRALASIAN COLLEGE OF PHLEBOLOGY  
28 - 30 AUGUST 2021  
UPDATED PROGRAM BOOK**

# PROGRAM AT A GLANCE

	Saturday 28 August	Sunday 29 August	Monday 30 August
0900			
0930	Opening Plenaries	Venous Interventions II: Cyanoacrylate Closure	New and Updated Classification Instruments
1000			
1030	Morning Tea		
1100			
1130	Ultrasound Insights	Innovations in Compression	Venous Thromboembolism
1200			
1230			
1300	Lunch		
1330			
1400	Lymphoedema and Lipoedema	Venous Interventions III	
1430			
1500	Afternoon Tea	Afternoon Tea	
1530			
1600	Venous Interventions I	Cases and Clinical Puzzles	
1630			
1700			

Please note that times are Australian Eastern Standard Time (AEST)

\* Program subject to change

# PROGRAM

**SATURDAY 28 AUGUST 2021**

## OPENING PLENARIES

Chair: Simon Thibault  
Moderator: Adrian Lim

- 900 **Introduction and Welcome to ACP2021**  
Simon Thibault, President of the Australasian College of Phlebology  
David Connor, Convenor, ACP2021
- 905 **Venous Disease and the Obesity Pandemic**  
Andre van Rij
- 920 **When to Look For and When to Treat Pelvic Vein Obstruction**  
Laurencia Villalba
- 935 **Thermal Ablation: Screw-ups - Tips and Tricks**  
Lowell Kabnick
- 950 **EVLA vs RFA: Is there a difference between the endovenous thermal ablation technologies**  
Stefania Roberts
- 1005 Panel Discussion

1030 Morning Tea

## ULTRASOUND INSIGHTS

Chair: David Huber  
Moderator: Steve Benson

- 1100 **SPONSORED PRESENTATION**  
**Ultrasound for lower limb venous assessment**  
Stephen Bird  
Sponsored by Canon Australia
- 1120 **Neck Vein Obstruction: Assessment and Application in a Phlebology Practice**  
Paul Thibault
- 1140 **Transabdominal duplex ultrasound and intravascular ultrasound planimetry measures of common iliac vein stenosis are significantly correlated in a symptomatic population**  
Laurencia Villalba
- 1150 **First experiences with the new pocket ultrasound devices**  
Paul Hannah
- 1200 **Treatment of Venous Malformations with Tumescent-assisted Endovenous Laser Ablation and Foam Sclerotherapy**  
Mina Kang
- 1210 Panel Discussion

**Canon**  
CANON MEDICAL

1230 Lunch

## LYMPHOEDEMA AND LIPOEDEMA

**Chair:** Joseph Grace  
**Moderator:** Neil Piller

- 1330 **An unusual case of primary lymphoedema**  
Vaughan Keeley
- 1340 **Have we lost the patient as an individual in the quest for good science?**  
Neil Piller
- 1350 **Look Beyond the Lipoedema, the patient as a whole**  
Chris Lekich
- 1405 **Lipoedema: New ideas, new information and a paradigm shift**  
Neil Piller
- 1425 **Renaming Lipedema – a Consensus Proposal**  
Erika Mendoza
- 1440 Panel Discussion

1500 Afternoon Tea

## VENOUS INTERVENTIONS I

**Chair:** David Connor  
**Moderator:** Niloofar Yazdani

- 1530 **Axial reflux elimination with concomitant incompetent tributary treatment as a comprehensive approach to treatment of superficial venous incompetence and venous leg.**  
Aleksandra Jaworucka- Kaczorowska
- 1550 **The first 6 months of radiofrequency ablation for treatment of chronic venous insufficiency, an audit of safety and efficacy from a single centre**  
Mary Swan
- 1600 **Lipiodol reduces the lytic activity of detergent sclerosants *in vitro***  
*Joseph Grace*
- 1610 **Restless Leg Syndrome an underdiagnosed disease waiting for Phlebologists to find and treat**  
Luke Matar
- 1620 **Cerebrospinal Venous Obstruction: Investigation and Management**  
Paul Thibaut
- 1630 Panel Discussion

\* Program subject to change

# PROGRAM

SUNDAY 29 AUGUST 2021

## VENOUS INTERVENTIONS II: CYANOACRYLATE CLOSURE

**Chair:** Stefania Roberts  
**Moderator:** Peter Paraskevas

- 900 **Cyanoacrylate (Venaplug application) for Perforator Vein Incompetence as well as Saphenous Vein and Accessory Vein Short Segment Incompetence/Groin Recurrence: A Case Series**  
Omar Ivan Rodriguez-Acevedo
- 910 **Cyanoacrylate Ablation: A treatment of choice for patients with severe lifestyle limiting cardiac comorbidities**  
Saurabh Joshi
- 920 **Cyanoacrylate adhesion closure for small saphenous veins compared with great saphenous veins**  
Naoki Sakakibara
- 930 **Glue Loves Foam: Innovative Cyanoacrylate + STDS technique for tortuous varicosities originating from truncal veins. - Stronger Together**  
Saurabh Joshi
- 940 **Adjunct sclerotherapy for the difficult patients with cyanoacrylate adhesion closure**  
Naoki Sakakibara
- 950 **Factors affecting cyanoacrylate polymerisation - an *in vitro* study**  
Joseph Grace
- 1000 Panel Discussion

1030 Morning Tea

## INNOVATIONS IN COMPRESSION

**Chair:** Andrew Stirling  
**Moderator:** Neil Piller

- 1100 **Compression therapy just like you ordered! - Understanding compression, its quantification and the physics at work**  
Luke Parkinson
- 1125 **Give me the Wrap: Patient centred control of chronic oedema and lymphoedemas**  
Neil Piller
- 1140 **Use of a wireless sub-bandage pressure monitor to improve accuracy of compression bandaging**  
Gabrielle McMullin
- 1150 **SPONSORED PRESENTATION**  
**Peripheral Arterial Disease, Diabetes and Graduated compression? A new solution from medi**  
Alex Carver, Giovanni Mosti, Franz Schingale and Annette Erhardt  
Sponsored by medi Australia

1200 Panel Discussion

1230 Lunch

## VENOUS INTERVENTIONS III

**Chair:** Paul Thibault  
**Moderator:** Joseph Grace

- 1330 **Treatment of veins in different body areas and its complications**  
Aleksandra Jaworucka- Kaczorowska
- 1350 **Postsclerotherapy Complications**  
Peter Paraskevas
- 1400 **Dealing with Sclerotherapy Extravasation - Novel method to deactivate STDS and relieve operator stress**  
Saurabh Joshi
- 1410 **Postsclerotherapy Pigmentation: A review and treatment with the Cutera Enlighten picosecond laser**  
Paul Thibault
- 1420 **DVT and PE Post Sclerotherapy**  
Gurjit Dhillon
- 1430 **Chronic Regional Pain Syndrome following UGS of Distal SSV – A Case Report**  
Jacqui Chirgwin
- 1440 Panel Discussion

1500 Afternoon Tea

## CASES AND CLINICAL PUZZLES

**Chair:** Paul Hannah  
**Moderator:** Lisa Marks

- 1530 **A possible case of leukocytoclastic vasculitis after sclerotherapy with polidocanol**  
Darren Ng
- 1540 **MSK differential diagnoses of leg pain for the phlebologist**  
Gilles Laur
- 1550 **Endovenous Therapy and the Surgical Safety Checklist**  
Jarrod Newell
- 1600 **Thrombophlebitis following Candela Laser Hair Removal – A Case Report**  
Jacqui Chirgwin
- 1610 **Peroneal veins or perineal veins? Should clinicians adopt fibular veins as the preferred anatomical nomenclature and discard the ambiguous synonym of peroneal veins?**  
Zachariah Kidman
- 1620 **Endovenous Heat Induced Thrombosis (EHIT) The importance of communication and management of this post ablation complication**  
Anuya Deshpande
- 1630 Panel Discussion

# PROGRAM

**MONDAY 30 AUGUST 2021**

## NEW AND UPDATED CLASSIFICATION INSTRUMENTS

**Chair:** Simon Thibault

**Moderator:** David Connor

900 **The Symptoms-Varices-Pathophysiology Classification of Pelvic Venous Disorders**  
Mark Meissner

920 **2020 Revision to the CEAP Scale**  
Fedor Lurie

940 **CEAP: C4-6 Pn - what is this?**  
Andre van Rij

950 **C0s: Venous symptoms without signs**  
Andre van Rij

1000 Panel Discussion

1030 Morning Tea

## VENOUS THROMBOEMBOLISM

**Chair:** Paul Hannah

**Moderator:** David Connor

1100 **STATE OF THE ART  
VTE Risk Assessment in the time of COVID-19**  
Joseph Caprini

1130 **The Australian Response to the vaccine induced Thrombotic and Thrombocytopenic Syndrome (TTS)**  
Vivien Chen

1145 **Why we should treat / intervene on DVT**  
Laurencia Villalba

1200 **Superficial venous thrombosis - a case for following the current grade 1 evidence for investigation and treatment**  
Lucy McKinnon

1210 Panel Discussion

1230 ACP2021 Closing

# POSTERS

Cyanoacrylate Embolization of Perforator Incompetence  
Ganesha Param

Surgical management of extensive DVT - 4 year experience.  
Rui Feitosa

A prospective study looking at the prevalence of diagnosed cases of chronic venous insufficiency in Aboriginal and Torres Strait Islanders in and around Cairns  
Alex Lapenga

Chronic lipodermatosclerosis in a patient with Functional Venous Disease  
Preshy Varghese

Lipoedema: Conservative Management designed to provide a long term pain-relief  
Gilles Laur

Flip the Device: Retrograde below-knee access for GSV and SSV Cyanoacrylate Abation- Novel method to treat ulcer base venous stasis for faster healing.  
Saurabh Joshi

# ACP2022

20 - 23 MAY | COOGEE
